Application Form for Training cum workshop on biofertilizer and biopesticide application in field

- Applicant's Name : _____
- Qualifications : _____
- Postal address : _____
for communication
- E-mail ID : _____
- Mobile No : _____
- Training fee : _____
(DD/Cash)
- Date: : _____
- Place: : _____
- Signature : _____
- Biodata (enclosed)

Two days Training Cum workshop on biofertilizer and biopesticide application in field

27th -28th January, 2017

Organized by

Forest Protection Division

Arid Forest Research Institute

(Indian Council of Forestry Research and Education, Dehradun)

**P.O. Krishi Upaj Mandi,
New Pali Road, Jodhpur- 342005
Rajasthan (India)**

About us

Arid Forest Research Institute, situated at Jodhpur in Rajasthan (India), is one of the premier Institutes of the Indian Council of Forestry Research & Education (ICFRE) under the Ministry of Environment, Forests & Climate Change, Govt. of India.

Mandate and objectives of Institute

It was established in 1988 with a mandate to conduct "Forestry research for conservation of biodiversity and enhancement of bio productivity in Rajasthan, Gujarat and Dadra & Nagar Haveli with special emphasis on arid and semi-arid regions".

Thrust Areas of Research

- To develop techniques for rain water harvesting in arid areas.
- To develop technology for afforestation
- Eco-stabilization of deserts with emphasis on sand dune fixation.
- To develop techniques for production of high quality planting material.
- Provenance trial of important arid zone species.
- Studies on bio-fertilizers and bio-pesticides.
- Research on Non-Wood Forest Products of arid zone.

- Tree improvement through tissue culture & genetic engineering.

Jodhpur City

Jodhpur, popularly known as Sun city or Blue city, is a place of tourist attractions and historical monuments viz. Mehrangarh fort, Umaid Bhawan Palace, Jaswant Thada, Clock tower and Market. Other places include Mandore Garden, Kailana lake, Machia Safari Park etc. The Institute is situated 10 Km from Jodhpur railway station.

FPD

Forest Protection Division was established in 1992 with the main aim of carrying out research on in evaluation, identification, bio-ecology and bio-management of insect pests of arid and semi arid tree species.

The main objectives of the division includes is

- Screening, identification and bio-ecology of pests of arid and semi-arid tree species and their integrated pest management

Training Course

Training will be imparted on application of beneficial microbes to increase productivity of different crop species and to protect them from attack of different diseases and insect pests as well as to develop quality planting stock materials for forest tree species.

It will be useful for those who are interested to start their business and will helpful in terms of developing entrepreneurship

This programme consists of lectures and hands on experience. Lectures will be delivered on benefits of application of microbes and other organic materials as biofertilizers as well as biopesticides.

Practical demonstration

Demonstration and on field multiplication of Biofertilizers and biocontrol agent using mother culture

Eligibility

Farmers, Students, Foresters, small scale entrepreneur.

No. of participants per batch : 25

Duration : 2 Working Days

Training Fee :

With Boarding and lodging : Rs. 4000/- (Rupees five thousand only)

Without Boarding : Rs. 3000/- (Rupees four thousand only)

Fee once paid will not be refunded.

Last Date of Fee : 15.01.2017

The amount should be paid either in advance. In addition, participants can also manage boarding and dinner, additional tea etc. on their own cost.
